## EDUCATION

**Bsc. Computer Science Concentration: Artificial Intelligence | The British University in Dubai**  
2018 – 2022

## PROJECTS

**Clinic Management System | C#, ASP.NET Webforms, SQL**

*University individual project*

- Created a Clinic Management System using ASP.NET Webforms
- System has 3 types of Users, (Patients, Doctors, Admins) where each user can perform different actions
- System allows patients to book appointments, doctors to approve appointments and Admins to have full control over database data

[Check on Github](#)

**Youtube Search Clone | HTML CSS JavaScript |**

*Personal Project*

- Used the Youtube API to create a Youtube Search Clone
- User can search and play video chosen from list of search results.

[Check Live](#)

[Check On Github](#)

**Delivery System Scheduler | Java, SQL**

*Univeristy Team Project*

- Used Java to create a system which produces reports to aid a warehouse in deliveries for the day and allow managers to create, read, update and delete employee records from the database
- Created a GUI using Swing for the system to allow for easier interactivity.
- Introduced Git and Github to my team members to ease the process of developing the application

[Check on Github](#)

**QA - Research Papers | Python, Flask, HTML, CSS , SQL**

*Personal Project*

- Created a Question - Answering web application using SQL, Flask, HTML and CSS
- Used a pretrained BERT QA model to perform extractive question answering on text.
- Users can enter questions on a documents uploaded by the user and have the top 6 possible answer displayed on the screen

[Check on Github](#)

**Face Recognition Attendance System | Python**

*University Team Project*

- Created a face recognition attendance system as a team of 3 people which marks students as present or absent by recognizing faces through a camera
- I was responsible for the part of getting the recognized faces and marking them as present in the excel sheet.

## SKILLS

*Soft Skills*

- Time Management
- Hardworking
- Teamwork
- Communication

*Technical Skills*

- Java, Python, SQL, HTML, CSS, JavaScript
- Git, Github, CLI

*Frameworks:*

- ASP.NET Webforms
